

Fee schedule

Effective from 1 August 2020

1. This Fee Schedule lists the indicative charges for services available from Attestant Limited for its Ethereum 2 managed staking service.
2. These indicative charges may be subject to change from time to time, or on a case by case basis in accordance with our internal policies and procedures. Any changes to this Fee Schedule will be notified to you in writing at your provided correspondence address.
3. Fees for the Attestant service are charged at 17.5% of Ether rewards during the quarter.
4. If for any given daily period a customer's reward for a validator is negative due to non-performance of the Attestant service, the customer will receive a rebate equivalent to that negative amount.
5. Any rebate given cannot exceed the fee for a given quarter, accordingly the fee can never be less than 0.
6. The customer is invoiced the net fee after any rebates, quarterly in arrears.

Example calculation:

A customer's net rewards in a quarter are 30 ETH. The fee is calculated as 17.5% of 30 ETH or 5.25 ETH.

During the same quarter a customer's validator earned a negative reward of 1.25 ETH within a daily period, resulting in a rebate of 1.25 ETH.

The final invoice amount for this quarter after rebates is 4 ETH.
